SUMMARY

Fresh CS graduate (GPA 3.60, RMUTTO) and Junior Mobile Developer shipping cross-platform apps end-to-end. Recently delivered **Boundless** — production Flutter / Firebase auction app with real-time bidding and social features (Android + iOS). Built **Cybersecurise** — Kotlin Android Native app selected as **NSC 2024 National Finalist** (NECTEC-funded), demonstrating depth in Android-native development. Honorably discharged from Royal Thai Navy (May 2026), seeking Junior Mobile Developer role with Flutter or Android Native focus.

TECHNICAL SKILLS

Mobile Development: Flutter (Dart) · Kotlin (Android Native) · Firebase (Auth, Firestore, Storage, FCM) · Android SDK · Material Design · Cross-platform Android + iOS · REST API integration · Real-time data sync **Backend:** Node.js / Express · Python / FastAPI · PostgreSQL, MySQL · REST API design · JWT Authentication **Frontend:** TypeScript, JavaScript · React 19, Tailwind CSS, Vite **Tools & Deploy:** Git, GitHub Actions (CI/CD) · Android Studio · VS Code · Postman · Render, Hostinger **Security-Aware Coding:** OWASP Mobile Top 10 · Secure authentication & input validation

EXPERIENCE

Royal Thai Navy · Military Conscription · *Nov 2025 – May 2026* · Honorably discharged

Freelance Mobile & Full-Stack Developer · Self-Employed · *May 2025 – Nov 2025* · Remote - Shipped **Boundless** — production Flutter / Firebase cross-platform (Android + iOS) auction app with real-time bidding and social feed (profiles, follow, posts, comments) - Owned full mobile lifecycle: requirement gathering → architecture → Firebase data modeling → UI/UX → release → post-launch support - Built supporting web frontends (React 19 + TypeScript + Tailwind) and backends (Node.js + PostgreSQL); deployed via GitHub Actions CI/CD - Applied OWASP Mobile Top 10 secure-coding patterns across every release

IT Support Intern · Eastern IT Sriracha · *May – Nov 2022* · Chonburi — Hardware/software/network troubleshooting for SME clients; OS and security tool configuration

EDUCATION

B.Sc. in Computer Science · GPA 3.60 · Rajamangala University of Technology Tawan-ok (RMUTTO) · 2025 Coursework focus: Mobile Application Development, Software Engineering, Cybersecurity, AI / ML

AWARDS & COMPETITIONS

- **NSC 2024 National Finalist** — Cybersecurise (Kotlin Android Native) — NECTEC / NSTDA — development funding awarded
- **AI Engineer Prompt Hackathon 2024** — 8th place — awarded "AI Engineer" title
- **Competitor** · Thailand Cyber Top Talent 2024 · Capture The Flag (CTF) Cybersecurity
- **Competitor** · ICPC 2024 · International Collegiate Programming Contest, Thailand Regional

KEY PROJECTS

Boundless · Flutter, Dart, Firebase, PostgreSQL, Node.js — Cross-platform production mobile app (Android + iOS). Real-time auction engine with optimistic UI updates and conflict resolution; social-feed layer (profiles, follow, posts, comments, likes). Deployed end-to-end as freelance work.

Cybersecurise · *NSC 2024 National Finalist* · Kotlin (Android Native), Python / FastAPI, Firebase — Native Android anti-fraud app with 5 defense layers: settings & app scanners, SMS classification (NLP backend), security knowledge quiz, blacklist lookup (CheckGon, ChaladOhn). Built to OWASP Mobile Top 10 standards.

Languages: Thai (Native) · English — reads tech docs and code daily; conversational fluency developing
