

Kitsada Khamnuan

Junior Full Stack Developer

Tel: 096-196-9105 | **Email:** kitsada.developer@gmail.com | **GitHub:** github.com/gong-sn-ix-ii | **Portfolio:** gong-ix-ii-dev.com | **LinkedIn:** linkedin.com/in/kitsada-khamnuan | **Open to:** Chonburi / Bangkok (Hybrid)

SUMMARY

Computer Science graduate, GPA 3.60 from RMUTTO, who has shipped real work to paying clients on both web and mobile. Comfortable with React, TypeScript, Node.js and PostgreSQL, and used to taking a project from the first client conversation through schema design, both ends of the stack, deployment and the fixes after. Built **Cybersecurise** at university, an Android anti-scam app that reached the **NSC 2024 national final** and won development funding from NECTEC and NSTDA.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, TypeScript, JavaScript, React 19, Tailwind CSS, Vite
- **Backend:** Node.js / Express, Python / FastAPI, SQL, PostgreSQL, MySQL, Database Design, REST API design, JWT Authentication
- **Mobile:** Flutter (Dart), Kotlin (Android Native), Firebase (Auth, Firestore, Storage, FCM)
- **Tools & Deployment:** Git, GitHub Actions (CI/CD), Postman, Render, Hostinger

EXPERIENCE

Royal Thai Navy, Military Conscription

Nov 2025 – May 2026

- Completed mandatory military service; honorably discharged 1 May 2026 and available to start immediately

Freelance Full-Stack & Mobile Developer, Self-Employed (Remote)

May 2025 – Nov 2025

- Built **web applications** for clients. React 19 and TypeScript on the front end, Node.js / Express and PostgreSQL behind it. I designed the database schema, the REST API contract and the JWT auth flow myself, then set up GitHub Actions so releases deployed themselves to Render and Hostinger
- Built **Boundless**, a real-time Flutter / Firebase auction app, for another client, and looked after it myself from the first requirements talk through to bug fixes and new features after launch
- Followed OWASP secure-coding practices on every release, and worked out scope, timeline and cost with the client before starting each project

IT Support Intern, Eastern IT Sriracha

May 2022 – Nov 2022

- Fixed hardware, software and network problems for small businesses around Sriracha, and kept building my own programming projects on the side

EDUCATION

Bachelor of Science in Computer Science

Graduated May 2025

GPA 3.60, Rajamangala University of Technology Tawan-ok (RMUTTO)

PROJECTS

Boundless | Flutter, Dart, Firebase (Firestore, Realtime DB, Auth, Storage, FCM), Node.js / Express An auction app with a social feed built into it, delivered to a client in **2 months: 20 screens across 8 feature areas** including auctions, the feed, following and real-time chat. The hardest part was people bidding at the same moment, which I handled with **Firestore transactions** and optimistic UI. The backend runs on Firebase Cloud Functions with Node.js and Express. One codebase covers Android and iOS; the Android build is the one that shipped.

Cybersecurise | *NSC 2024 National Finalist* | Kotlin (Android Native), Python / FastAPI, Firebase An Android app that keeps Thai users from getting scammed, made of **5 systems working together**: SMS classification into **4 classes at 95% accuracy**, a scanner for the device settings scammers exploit that takes you straight there to turn them off, a risk score for installed apps based on the permissions they ask for, blacklist checks against **2 external APIs** (CheckGon, ChaladOhn), and a quiz that teaches users the common tricks. Funded by NECTEC / NSTDA.

Thai SMS Scam Detection API | Python, scikit-learn, FastAPI Took the classifier from Cybersecurise and put it online as a **Public REST API** on Hugging Face, with a console on my site where you can type a message and watch it get classified.

AWARDS & COMPETITIONS

- **NSC 2024 National Finalist**, Cybersecurise, with development funding from NECTEC / NSTDA
- **AI Hackathon 2024**, awarded the "AI Engineer" title in a national Prompt Engineering contest, given to the top 10 only
- **Competitor**, Thailand Cyber Top Talent 2024 (CTF) and ICPC 2024 Thailand Regional

Activities: Sports Division President, Faculty of Science Student Union, RMUTTO **Languages:** Thai (Native), English (Professional reading & writing)
